

What is good about coming back to school...

What is worrying me about coming back to school...

The worksheet is designed for a student to reflect on their concerns about returning to school. At the center is a yellow 'worried' emoji (🙄). Four thought bubbles, each consisting of a large circle connected to the emoji by three smaller circles, are positioned around the emoji: two above and two below. Each of these four large circles is connected to a rectangular box for writing. The boxes are arranged in a 2x2 grid: two on the left and two on the right, with the top row boxes positioned above the top thought bubbles and the bottom row boxes positioned below the bottom thought bubbles. All boxes and circles are empty, providing space for the student to write their thoughts.
