Holy

Madonna and child
(Christianity)

Fun activities to try at home

Science—Humans and animals

There are lots different activities that your child can do at home to help them understand how the human digestive system works and food webs/chains.

You could try:

- Making the human digestive system using a pair of tights!
<https://www.bbc.co.uk/bitesize/topics/zf339j6/articles/zrm48mn>
- Let the Lion King explain the concept of food chains and webs.
<https://www.youtube.com/watch?v=vC-Jgv9hFSM>
- Make your own food chains using cups.

PSHE—Families

As part of understanding family relationships and different types of families within our PSHE unit, your child might like to make a family tree.
