

Year 5 Summer 1

Geography

The Amazon Rainforest

English

- Jumanji- adventure narrative.
- Amazon non-chronological report.

Science

Living things and their habitats:
life cycles and reproduction.

Music

The rainforest

During Summer 1 pupils in Year 5 will be learning about:

Hook: Q & A zoom with somebody who lives in the rainforest.

Computing

3D modelling

PSHE

The influence of the media

Art Drawing

Design & Technology
Pasta salad

Maths

- Decimals
- Shape

French

Les vêtements

P.E.

Rounders & Yoga

R.E.

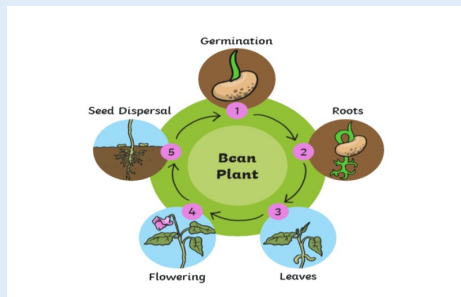

Sacred places

Fun activities to try at home

Science—Lifecycles

This half term, the children will be learning about lifecycles. The children will be looking at the lifecycles of a frog, plant and then next half term, looking at the lifecycle of a human.

To support the children with their learning, you could plant a seed and discuss the different stages as they happen. The children will be able to explain the different parts of a plant and share their understanding of the lifecycle with you after learning this at school .

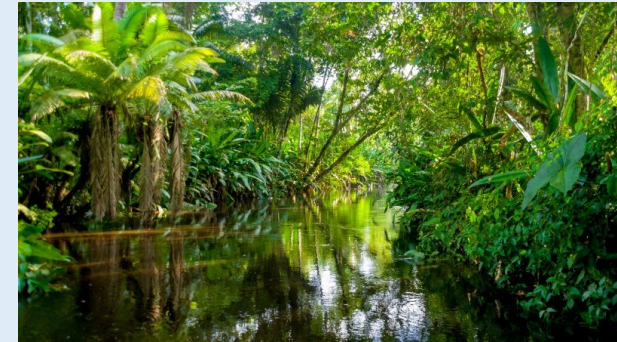

Key vocabulary

Stigma, style, pollen, sepal, filament, ovary, stamen, pollination, germination, seed dispersal, flowering.

Geography—Amazon

Here are some ideas of activities children may like to try at home to further develop their Amazon learning:

- Create a piece of artwork linked to the Amazon– this could be a collage, a painting, a drawing or even a junk modelling model of the Amazon.
- Research and create a power point to show off all of the wonderful facts you have learnt about the rainforest.
- Use an old shoebox and create an amazon scene.

We would really love to see what your children create and learn about the Amazon and we hope they love learning about it at home as much as we all do at school. Please send your children's projects into school to show their teachers.
