

# Year 6

## Autumn 2

### History

- Life in Ancient Greece
- The legacy of the Ancient Greeks

### Maths

- Fractions
- Percentages
- Statistics

During Autumn 2, pupils in Year 6 will be learning about:

### English

- Film narrative— The Piano
- War narrative based on Private Peaceful

Hook: Ancient Greek Day

Wow Day: RE Play in a day

Trip: Peartree Church

### Art

3D sculpture

### P.E.

Tag Rugby and dance

### Science

electricity

### Music

singing

### Computing

multimedia

### PSHE

cyberbullying

### French

Je me décris (describing myself)

### R.E.

Christian beliefs about Jesus

## Fun activities to try at home

### Science—Electricity

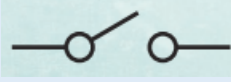

There are lots of different activities that your child can try at home to apply their electricity learning. You may like to:

- Charge a comb by rubbing it on your head and watch the water 'bend' as it comes out of the tap!

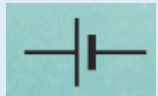

- Charge a plastic spoon by rubbing it against your head, then use it to 'magically' separate pepper from salt!!

- Use a smooth sheet of glass or plastic, a straw and some bubble solution. If you don't have any bubble solution, you can make your own using dish soap and a little water. Once it's ready, spread your bubble solution on the sheet and blow some big bubbles using the straw. Bring a charged object like a balloon near the bubbles and they'll follow the object around!

Using these symbols for a bulb, switch, cell and wires, can you create some circuit drawings?

**Key vocabulary to use with your child:** Current static attract repel molecules forces

### History—Ancient Greece

Here are some ideas of activities children may like to try at home to further develop their learning about Ancient Greece:

Zeus

Poseidon

Apollo

Athena

Ares

- Draw sketches of their class Greek God/Goddess focusing on the art skills of proportion, shading and blending.
- Read an Ancient Greek myth and create a story board of the events. You could even act it out!
- Research a Greek God/Goddess and create a poster or Power-Point displaying the key facts they have learnt.
- Write a speech as one of the Greek Gods/Goddesses persuading their people that they are the most powerful God/Goddess of all, giving detailed and developed reasons for this.
- You may wish to visit the Ure museum of Greek Archaeology which can be found at Reading University. Alternatively, you could visit any Southampton library to borrow a range of books on the fascinating topic of Ancient Greece!
